### FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, billiousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalide Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering allments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or billousness, and kindred dorangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headnches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flushes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no aicohol or habit-forming drugs. All its ingredients printed in plain Engilsh on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery" Constitution discovery."

[Entered at the Postoffice of Aluxandria, Virginia, as second-class matter.]

JAPAN AND THE PHILIPPINES.

Capt. J. H. Aldrich, a nephew of Maj. Gen. Shafter, and former provost marshal general of the middle provinces of Luzon, sees in the present Japanese agitation against the exclusion of pupils from San Francisco schools a move in a campaign to acquire possession of the Philippines. Capt. Aldrich declares that ever since Dewey captured Manila the Japanese have been eager to get the island. He says Japanese are now pouring across from Formosa to Luzon and settling in the extreme northern part of the island.

While in charge of a district between Malolos and Tuigus, Capt. Aldrich captured ten Japanese engineers, disguised as Filipinos. They were on an island in the Balenag river, and their camp contained a fine surveyor's outfit, camera, &c. They had complete maps of the whole country

Through some mistake they were set at liberty. Several months later Capt. Aldrich was in Hankow, China, where he identified the leader of the engineers as Capt. Yamoto, of the Japanese engineers' services. He boasted to Capt. Aldrich that Japanese maps of Luzon, clear down to Manila, were far better than the Ameri can maps, and that a Japanese general in Formosa with these maps could move an army corps perfectly in Luzon. Capt. Aldrich adds that the island of Palola, off the Luzon coast, only 100 miles from Manila, should be fortified strongly, as this is the point which the Japanese would sieze for disembarking forces from Formoso.

The story that a Japanese army officer had been placed under acrest at Manila for sketching certain of the fortifications of Manila harbor was denied yesterday by M. j. Gen. Leonard Wood, commander of the division of the Philippines. No such acrest has been made, and no Japanese have made sketches of the fordifications. It is well known that since the American occupation Japanese have been engaged in drawing maps of the Philippines. There is no existing law to prohibit them, although such laws were in force under the Spanish regime.

Fifty Thousand Men Wanted.

Inability to find laborers is hampering the railroads all over the West in carrying out contemplated improvements. At least 50,000 men are wanted, railroad managers say, with practically none in the market, despite the fact that the railreads are willing to furnish transportation, and, in some cases, to pay as high as \$2.50 daily. Here are a few of the systems in the market for help :

Western Pacific, 8,000; Chicago, Mil-waukee and St. Paul, 6,000 to 7,000 men for its extension to the coast; Southern Pacific, 6,000 for its extension north-ward through California to Portland; Chicago and Northwestern, 4,000 to 5,000 men; North Coast Line, large force for road from Walla Walla to

Sentile. In addition to new construction nearly every western road is double-tracking and building cutoffs and similar improvements. The Northern Pacific wanted to double track its Washington line for the fall and winter traffic, but failed through lack of labor, with the result that it has 10,000 loaded cars on its side tracks for lack of main track facilities.

Towards and Street, Alexandra, va.

The following is a partial list of representative merchants who have had their stores wired and fitted up for the use of electricity by us:

R. C. ACTON, E. L. ALLEN, H. BLCCH

& SONS, H. WILDT, WEIL BROS,
and W. I. WHITSON,
We refer any one, thinking of wiring, to them. In addition to new construction nearly

cause, railroad men think, laborers pre-fer the South to the North during the winter. Even in Texas, however, the labor supply is inadequate.

Locomotive Invades Barroom .

A locomotive drawing an eastbound freight train on the Central Railroad jumped the track at Rome, N. Y., yesterday and plunged into a saloon at the for useful wedding presents. Large line o corner of James street and the railroad. President. Secretary. was caught in the wreckage and scalded carpets, morris chairs, bric-a-brac and many to death. Brakeman Robert B. Vander-

voort, of Albany, was crushed to death under the tender cars. At the station in Rome the engineer received the signal to cross over to another track. At a frog the locomo-tive jumped the track and ran along the ground a distance of 125 feet, when it swerved, and then plowed straight into the saloon, a two-story frame building. There was no one in the barroon nor in any of the upper rooms affected by the smashup. The car next to the tender was broken in two and the second car
